COURT AND PUNTI DIALECTS, PUBLISHER'S NOTICE. WIIS WORK was commenced in November, 1864, the computation of the author then being that it sould be comprised in one thousandfour had red pages, and would occupy two years. Many unlooked for abstructions, chiefly of a typographical nature, materially retarded the progress of the work in the first instance, and these being evercome, the author dispovered that he had underestimated the extent and the importance of which he had at the outset computed. The publication of a work of such magnitude. and presenting so many and such varied obstacles, seldom falls to the limited resources of one single individual, as occurs in this case. The first part of the work is now issued, partly at the request of the author and partly to afford the Foreign Community of China an apportunity of extending that assistance to the publisher, which under the circumstances is usually so freely accorded. The price of the book complete, will be \$30 and it will be published in four parts at \$7.50 each. But this objection presents itself to the asle of the parts reparately, should the purchaser of one or more parts not take the others, a number of incomplete, and consequently valueless, copies will be left on the publisher's bouds. To remedy this objection, in consideration of the circumstances already alluded to, it is haned that those who see fit to patronise the undertaking by purchasing the first part, will not object to signing an engagement to take the remaining parts, as they Harry George Gordon, Esq., Chairman. appear, or should they prefer it, to pay for the en- William Scott Binny, Esq., Deputy-Chairman tire work in advance.
